Canada

Dear Mrs. Robinson-Powell,

RE: The Jamaican Canadian Association of Nurses Development and Endowment Fund

I would like to express my sincere gratitude for this great opportunity of being a recipient of the Jamaica Canadian Association of Nurses Development and Endowment Fund. Indeed, dreams do come through and I would like to wholeheartedly thank you and the UWIDEF team for their vision in the development of students across various academia to access higher education.

I started my degree in nursing two years ago and I am bursting with enthusiasm each time I run my wards at the hospital. It feels very rewarding to know that my input, no matter how small, has an effect on the lives of those I am caring for. Making a difference in people's lives and bringing them hope and cheer is one of the reasons I wanted to do nursing as my profession. There were several roadblocks hindering me from attaining this dream. However, I am now able to complete my studies and work hard at saving lives because this scholarship has saved mine.

This donation has immensely alleviated my financial concerns of funding my tuition and other necessities needed for my studies. Furthermore, it stands as a constant reminder and motivation to continue working hard towards fulfilling my purpose of being an inspirational member to my community and likewise my society.

Once again, I thank you for continually transforming lives with your generosity.

Sincerely,

Linda Bennett
